## DO NOT BE FOOLED - KNOW WHAT YOU ARE PAYING FOR

**AIRCRAFT SALES WORK DIFFERENTLY THAN WHAT YOU THINK...**

Seller brokers receive a commission. If you want someone to represent **YOUR** interest, you need to hire a **BUYER BROKER**. Someone who is working just for **YOU**. When only the seller broker receives the commission, this leaves the buyer brokers with little to no motivation to find an airplane. Because of this, the end results can be a disaster, and as a buyer, you will have no idea! Buyer brokers will typically only sell their own current inventory. Some may add their own commission to the final sale price, leading you to believe the airplane cost more than it really did. Don't let these scenarios happen to you!
